-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's declaration filed November 20, 2003 has been acknowledge, however the declaration is not acceptable as a substitute for an English translation of the foreign priority document. See MPEP 201.15 and 37 CFR 1.55.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2,4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 2,

The recited limitation of "making adjustment of the curvature of the wavelength selection element only by the adjustment means impossible" in claim 2 is confusing. It is not clear if the adjustment means can make adjustments or not.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Lindonen et al (PN 4,022,523).

Regarding claims 1-4,

Figure 2 illustrates an adjustable device, which may be used in laser systems, for adjusting the radius of curvature of mirror (10), where the adjustable device includes an adjustable knob (40), a mounting block (15) for the mirror, contact rods (19) and (20) and rods (22) and (23), where movement of contact rods provide increase or decrease to the radius of curvature of mirror (10), as described in column 1 lines 27-40 and column 3 line 9 to column 4 line 68. The adjustable device is mounted on base (34), which includes locking screws (56) and (57) for locking the mirror in place, as described in column 4 lines 35-53.
